Re: Ennix v. Alta Bates Summit Medical Center

Dear Andy:

Enclosed you will find Defendant's Racial Composition Data concerning the Summit Medical Staff Membership for 2004, 2005 and 2006. As discussed, Defendant selected three individuals to review the rosters and the document represents their best estimate of the race of the listed individuals. The Summit Medical Staff does not maintain race based statistical information and the data are being produced subject to Plaintiff's agreement to make a contemporaneous exchange. The racial composition data was prepared using the following designations:

- 1 = Hispanic or Latino;
- 2 = Caucasian;
- 3 = African American;
- 4 = Native Hawaiian or Other Pacific Islander;
- 5 = Asian;¹
- 6 = American Indian or Alaskan Native;

¹ "Asian" includes a person having origins in the Far East, Southeast Asia, or the Indian subcontinent (e.g., Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam).

Andrew E. Sweet, Esq.
January 24, 2008
Page 2

7 = Two or More Races from the above;

U = Undetermined following a reasonable inquiry under all the circumstances.

Very truly yours,

A handwritten signature in cursive script, appearing to read 'Matthew P. Vandall', is written over the typed name.

MATTHEW P. VANDALL

Enclosure

*The Summit Medical Staff does not keep statistics re race; the information in this column is the best "guess" of the three individuals who reviewed it. The estimates are based upon the personal knowledge of these three individuals and available information contained in the Summit Medical Staff files. Where these individuals have no basis for formulating an estimation of race, the column contains the letter "U" for "Undetermined"). The numeric references are as follows: 1 = Hispanic or Latino; 2 = Caucasian; 3 = African American; 4 = Native Hawaiian or Other Pacific Islander; 5 = Asian; 6 = American Indian or Alaskan Native; and 7 = Two or More Such Races
